## RHODES' SUPER-PHOSPHATE!

PLANTERS seeking Manures, will recollect that RHODES' SUPER-PHOSPHATE is the only Manure the late eminent analytical Chemist, Professor Bickell, of Maryland, pronounced

Standard!

and which has been confirmed by every section into which this Manure has been introduced. This Manure is sold under a legal guarantee of

Purity and Freedom FROM ALL ADULTERATION!

From the eminent manufacturing chemists, Messrs. Potts & Klett, under whose personal supervision RHODES' SUPER-PHOSPHATE is manufactured. This Manure has been used in South Carolina for several years past, with great success in the culture of Cotton and Corn, and is now thoroughly established for these important staples. Do not let the present season pass without the experiment.

ATHENS, GA., Nov. 22, 1850.  
Dear Sir: Rhodes' Super-Phosphate has been applied by me this year, on a small scale, to both Corn and Cotton. The result exceeded my expectation, although the experiments, for many seasons, were not conducted with due caution, yet I am entirely satisfied, that the growth of weed, in both instances, the fruit in corn, and the number of bolls of cotton, were fully double the yield in the portions unmanured, and this when only a table spoonful of the Super-Phosphate was applied as a top-dressing to each hill of corn, and a tea-spoonful to each stalk of cotton—and the last as late in the season as the 15th of July. Some of the weed grew to nine feet high, with six feet branches, covered with bolls, while the unmanured was not half so good. It is my intention next year, to test it more fully.

Very Respectfully,  
Your most obt. servt.,  
(Signed) M. C. M. HAMMOND.  
UNION POINT, (G. R. R.) Nov. 28, 1850.  
Messrs. J. A. Ansley & Co. of Rhodes' Super-Phosphate in Baltimore, last Spring, Mr. H. D. Leitner, of Berzelia, to test its value as a manure. I put about 125 lbs. on an acre of cotton, in the drill, on land that would not make over 75 to 100 lbs. of seed cotton per acre, without Manure. The result is entirely satisfactory. I have made at least from 450 to 500 lbs. to the acre on this very poor land. I expect to purchase from 3 to 4 tons for my Spring crop. My Overseer wishes me to put his name to this also. Yours, in great haste,

## MANIPULATED GUANO.

No. 63 SECOND STREET,  
BALTIMORE, NOV. 28, 1850.

REPORT OF ANALYSIS OF ROBINSON'S MANIPULATED GUANO FOR FRANCIS ROBINSON, ESQ., BALTIMORE CITY.

A SAMPLE of the above which was taken at your Mills, was found, upon analysis, to be capable of producing of Ammonia, 8.31 per cent. Bone Phosphate of Lime 45.82 " " The above proportion of Ammonia and Bone Phosphate of Lime is known to be most proper for concentrated manures. Both theoretical reasoning and the results of numerous practical experiments have approved of it. An application of 200 lbs. of this article per acre, will supply more of Bone Phosphate of Lime than is required by any crop—thus leaving a considerable surplus of this valuable nutrient incorporated with the soil after cropping, and will furnish a sufficient quantity of ammonia to act as a nutrient and stimulant.

REPORT ON MANIPULATED GUANO, FOR FRANCIS ROBINSON.

The sample analyzed was taken by myself from the bags in the mill where the guano is manufactured.

Ammonia, 8.24 per cent. Phosphoric Acid, 21.98 " " Equivalent to Bone Phosphate of Lime 47.59 " " It is therefore an excellent manipulated guano, containing enough ammonia to produce a rapid and vigorous growth, and sufficient quantity of phosphates to prevent exhaustion of the soil.

A SCORE OF YEARS AGO. Down by the breaking waves we stood, Upon the rocky shore, The brave waves whisp'rd courage, And hid with friendly roar The flitting words that told the tale I dared not tell before.

I ask'd if, with the priceless gift, Her love, my life she'd bless; Was it her voice, or some fair wave— 'Tis sooth, I scarce may guess— Some murmuring wave, or her sweet voice That hush'd so sweetly, "Yes!"

And then, in happy silence, too, I clasped her fair we hand; And long we stood there carelessly, While o'er the dark'ning land The sun set, and the fishing boats Were sailing from the strand.

It seems not many days ago— Like yesterday—no more. Since then we stood, my love and I, Upon the rocky shore; But I'm four-and-twenty then, And now I'm forty four.

The fly had been thinner now, And in her sunny hair, I see some silver lines, and on Her brow some lines of care; But, wrinkled brow, or silver locks, She's not one whit less fair.

The fishing boats a score of years Go sailing from the strand; The crimson sun a score of years Set o'er the darkening land; And here to night upon the cliff We're standing hand-in-hand.

"My darling, there's our eldest girl, Down on the rocks below; What's Stanley doing by her side?" My wife says, "You should know; He's telling her what you told me A score of years ago."

### MILITARY BILL.

Be it enacted by the Senate and House of Representatives, now met and sitting in General Assembly, and by the authority of the same, That whenever it shall appear that an armed force is about to be employed against the State, or in opposition to its authority, the Governor be, and he is hereby authorized, to call into the service of the State, for the purpose of repelling the same, and for such other purposes as he may deem necessary and proper, and to organize the same on the following plan:

1. That immediately after passing this act, the Governor shall be authorized and required to call for one volunteer company of infantry from each infantry battalion and to receive two rifle companies from each Infantry Brigade in the State, to consist of one captain, one first-lieutenant, one second-lieutenant, one third-lieutenant, five sergeants, six corporals, and not less than sixty, nor more than eighty-five privates; and such company shall have preference in the order of acceptance, the Governor over other companies, subsequently raised from such battalions, or from the State at large. That every existing volunteer company, troop, or squadron, battalion or regiment, composed of volunteer corps, which shall offer their services as a whole, may be so received and permitted to retain their officers. Provided, They tender their services with the requisite number, of officers, non-commissioned officers and privates. And if any battalion of infantry shall neglect, refuse or fail, for want of numbers for thirty days after the issue of the call of the Governor for the purpose aforesaid, to report to him the organization of such volunteer company or companies, with their complement of officers, non-commissioned officers and privates ready for service, then the Governor is hereby authorized and required to fill such vacancies, by receiving volunteers from the nearest battalion or battalions to the one so failing; and to order a draft from such battalions as refuse or neglect to tender the requisite number of officers, non-commissioned officers, and sixty privates.

2. That in addition to the above, the Governor is hereby authorized to receive as volunteers one or more companies of cavalry, from each cavalry regiment of the State. Each company to consist of one captain, first and second lieutenants, one cornet, four sergeants, four corporals, one saddler, one farrier, one trumpeter, and not less than thirty-two nor more than sixty privates, and organize the same into not more than four squadrons, and two regiments, with the proper field and staff officers, as now provided by law; and to arm and equip the same for active service.

3. That the Governor is also hereby authorized to accept the services of one Regiment of Artillery from the city of Charleston, one Company of Artillery from the city of Columbia, one Company of Artillery from Georgetown, one Company of Artillery from the town of Beaufort, and to arm and equip the same, for active service; and each Company of Artillery shall consist of one Captain, four Lieutenants, two Staff Sergeants, six Sergeants, twelve Corporals, six Artificers, two Buglers, and not less than thirty-two nor more than one hundred and twenty-five privates.

4. That each Company of Volunteers under this Act, when formed, and before tendering their services, may elect or appoint their own company officers; but no election shall take place in any company while in active service, except in cases of vacancy in the officers of Ensign or Cornet or Fourth Lieutenant of Artillery, which shall be filled by an election: Provided, That such election shall be ordered forthwith by the superior officer in command of the Company, Battalion, or Regiment in which such vacancy shall occur, and the election shall be held within twenty-four hours after such order has been issued, and in all other cases of vacancy the same shall be filled by promotion of those next in grade thereto in their respective companies.

5. That the Governor is hereby authorized and empowered to order into active service any part or all of the Military force embraced under this Act, whenever, and at whatsoever places he may deem the safety of the State requires: Provided, That such Military forces shall not be compelled to remain in active service for a longer period than twelve months. And the Governor is hereby authorized to call, previous to the expiration of the said term of service of the Troops in the field, for further Volunteer forces to supply their places, should the same be deemed necessary for the safety of the State.

6. That the Governor is hereby authorized and empowered to order into active service any part or all of the Military force embraced under this Act, whenever, and at whatsoever places he may deem the safety of the State requires: Provided, That such Military forces shall not be compelled to remain in active service for a longer period than twelve months. And the Governor is hereby authorized to call, previous to the expiration of the said term of service of the Troops in the field, for further Volunteer forces to supply their places, should the same be deemed necessary for the safety of the State.

7. That the Governor is hereby authorized and directed to organize forthwith the new companies herein provided for, and the existing Volunteer organizations of the State who tender their services, into appropriate Battalions, Squadrons, Regiments, Brigades and a Division; that the said Military Division shall be officered by one Major General to be appointed by the Governor by and which the advice and consent of the Senate, and to be commissioned by the Governor, and in case the Senate shall not be in session, the nominee of the Governor shall be commissioned by him, and hold the office until the close of the next session of the Legislature after such appointment; and that said Major General shall have power to appoint the following Staff officers that is to say; One Deputy Adjutant General, with the rank of Colonel; One Division Inspector General, One Division Quartermaster General, One Division Commissary General, One Division Paymaster General, One Division Surgeon General, each with the rank of Lieutenant Colonel, and three Aids-de-Camp, with the rank of Major; said Staff Officers to be commissioned by the Governor.

11. That when eight companies of infantry and the rifle companies thereto attached, in any infantry brigade, shall have been accepted, the Governor shall organize the same into a regiment, and shall authorize the said companies to meet at their respective rendezvous on a given day, and there ballot for colonel, lieutenant-colonel, and major, and the result of the balloting in each company shall be transmitted by the captain thereof to the Governor, who shall delay the election, and commission said officers. Women who sue for breach of promise may fail to get money; but they generally receive heavy damages.

The first of all virtues is innocence; the second is modesty; and neither departs without being quickly followed by the other.

A patent medicine vender in this city advertises pills and ointment that will cure the worst of any pair of boots.

A lady sometimes keeps charms upon her watch-guard; but it is more important that she keep watch and guard upon her charms.

A man's good fortune often turns her head; his bad fortune as often turns the heads of his friends.

It is mentioned as a curious circumstance that a watch should be particularly dirty when it has a running spring in it.

A husband telegraphed to his wife— "What have you for breakfast, and how is the baby?" The answer came: "Buck-wheat cakes and the usual."

Happiness and sorrow are the two sides of the same medal; and the moment of greatest happiness is often the moment of greatest sorrow.
